Upcoming "GREEN" Events

It's Easy Being Green with so many activities to help

Come & Join the Fun with people who care

We have never had so many events. So many people are stepping forward to take action to do the things that will make a difference. The Recycling Events are just one step but a **BIG** one. Keeping natural resources out of the landfill and putting them back in circulation where they can be used again and again is vital to helping our Earth.

Thanks for your participation and concern!

Plus, if you are looking to volunteer, contact the event listed - we can always use help!
