

Environmental Sustainability

Over the past decade, NOW Foods has significantly increased our environmental efforts. Looking forward, we will continue to explore new ways to reduce our carbon footprint while setting an example for others.

NOW's Sustainability Progress:

- ❖ Water conservation projects save over 1.3 million gallons of water per year.
- ❖ Energy efficient lighting saves over 600,000 kWh/hrs annually.
- ❖ We recycle over 400 tons of material annually.
- ❖ We recycle 100% of our E-waste (obsolete electronics) to protect groundwater.
- ❖ We switched to 100% recycled content shipping boxes saving over 12,000 trees annually.
- ❖ For over a decade, NOW employees have helped maintain our local forest preserve by holding volunteer clean-up and planting days.
