Category: Supports Thermogenesis*

- 750 mg Green Tea/350 mg EGCg
- Calorie Burning*
- Free Radical Defense*
- Promotes Proper Fat Utilization*

Item 2075 – 90 Veg Caps

Positioning Purpose: Our 400 mg Green Tea Extract Caps (4705 & 4706) have been a popular weight management product, but retailers and consumers alike have requested a higher dosage. We're happy to respond with new NOW® Extra Strength Thermo Green Tea™, a convenient way to obtain the active constituents of Green Tea in a concentrated form.

Product Description: With 750 mg of Green Tea Extract including 350 mg EGCg (Epigallocatechin Gallate), Extra Strength Thermo Green Tea™ is a powerful Green Tea Extract supplement that combines the natural free radical quenching power of Green Tea with its ability to support cellular thermogenesis and promote proper fat utilization. Extra Strength Thermo Green Tea™ therefore represents a healthy way to assist in achieving optimal energy expenditure, as part of a balanced diet and exercise program.*

Ingredients: Green Tea Extract (*Camellia sinensis*) (Leaf) [350 mg EGCg (Epigallocatechin Gallate)] (up to 7 mg of naturally occurring caffeine) 700 mg. Other Ingredients: Cellulose (capsule), Cellulose Powder, Stearic Acid (vegetable source) and Silica.

Ideal Users: Adults seeking a healthy way to achieve optimal energy expenditure, proper fat utilization, cellular thermogenesis, and free radical defense.*

Recommended Use: As a dietary supplement, take 1 capsule daily with a meal. Do not take this product on an empty stomach; do not exceed recommended dose.

Also Consider Taking: CLA and Carnitine.

Supporting Science: N/A

Additional Information: For adults only. Take with food. Consult physician if pregnant/nursing, taking medication, have a medical condition (including a liver disorder), or are planning to have surgery. Keep out of reach of children.
