- 100% Pure
- Rich in Beneficial Fatty Acids
- Suitable for Hair, Scalp, Skin and Nails
- Moisturizes and Balances Skin pH
- Authentic Moroccan Oil

Item: 7736 - 4 fl. oz.

Positioning Purpose: Our new certified organic Argan Oil is a unique natural moisturizer extracted from the Argan tree (*Argania spinosa*), a hardy tree native to Morocco. Argan Oil (also known as “The Gold of Morocco”) is very rare and difficult to obtain since Argan trees only grow in a specific region of Morocco. Traditionally used as a culinary oil, Argan Oil has enjoyed growing popularity with the cosmetics industry due to its unique fatty acid profile. It’s an excellent source of oleic and linoleic fatty acids, and it contains vitamin E tocopherols, phenols, squalene, and more.

Product Description: NOW® Solutions Certified Organic Argan Oil is a multi-purpose personal care oil that provides intense moisture renewal for hair, scalp, skin and nail cuticles. It adds a lustrous shine to hair, and helps to keep hair, skin, scalp and nail cuticles moisturized. Argan Oil also aids in the repair of damaged and/ or irritated skin, and it has the unique ability to help maintain healthy skin pH. This oil is 100% pure, expeller-pressed, and hexane-free.

Ingredients: Organic Argan Oil (Moroccan) (100% pure) (from tree nuts of Argan Tree).

Ideal Users: Adults in need of intense moisture renewal for hair, scalp, skin and nails.

Recommended Use: For dry skin, apply a liberal amount where needed most. For hair, rub a few drops between hands and run through hair to add shine and reduce fly-aways. Or add a few drops to your favorite NOW® Solutions product and mix well.
