

Clinical Probiotic Immune™

Category: Healthy Intestinal Flora

- Contains 12 Billion per Veg Capsule
- Contains *L. Acidophilus* NCFM® (10 Billion) Plus *B. Lactis* BI-04
- Clinically Validated Strains Proven To Support Robust, Balanced Immune Response*
- Appropriate for Adults and Children over 4
- Stable at Room Temperature
- Acid Resistant Probiotic Strains
- Made without Dairy, Wheat, or Gluten

Item 2908 – 60 Veg Caps

Positioning Purpose: Digestion is not the only thing that goes on down in your gut . . . Your gut is the home to an estimated 70% of your immune system. A growing body of scientific work indicates the beneficial bacteria of your GI tract play a pivotal role in helping your immune system function at its best.*

The bacteria in your gut help keep your immune system primed and ready for action.* It seems these helpful microbes also coach your immune system so their reaction is more sophisticated, measured and balanced.* This results in a balanced and sturdy immune system ready to help you navigate the complex world we live in. Literally thousands of studies are revealing the specifics of how this three-way alliance between your digestive cells, your immune cells, and probiotic bacteria helps you thrive.*

Product Description: NOW Foods' Clinical Probiotic Immune™ combines *L. acidophilus* NCFM® (10 billion) and *B. lactis* BI-04®, two clinically validated probiotic strains that help to promote a robust, balanced response to immune system challenges. Both of the acid-resistant strains in this formula are known to support digestive health, while NCFM® may also help to support a healthy insulin response through its positive influence on the GI tract.* Each capsule is made with acid-resistant probiotics that maximize their viability past the stomach.

Ingredients: Blend of Probiotic Bacteria 12 Billion Organisms (*Lactobacillus acidophilus* NCFM® (predominant strain/10 billion) plus *Bifidobacterium lactis* B1-04®), Cellulose Powder, Acid-Resistant Cellulose Capsule, and Silica.

Ideal Users: Adults and children over 4 seeking clinically-proven support for a robust, balanced response to immune system challenges.*

Recommended Use: As a dietary supplement, take 1-2 capsules 1 to 2 times daily. Not recommended for children under 4.

Also Consider Taking: N/A

Supporting Science: Andreassen AS; et al. "Effects of *Lactobacillus acidophilus* NCFM on insulin sensitivity and the systemic inflammatory response in human subjects." *British Journal of Nutrition*, Volume 104, Number 12. 2010.

Additional Information: Not manufactured with wheat, gluten, soy, milk, egg, fish, shellfish, or tree nut ingredients. Keep refrigerated to maintain potency. Consult a physician if pregnant/nursing, taking medication, or have a medical condition.
