

Sun-E™ 400

Category: Antioxidant Protection*

- Non-GMO & Soy-Free
- 400 IU Natural Vitamin E Per Softgel
- D-Alpha Tocopherol from Non-GMO Sunflower Oil
- Unique Sun E 900™ Natural Vitamin E Sunflower Oil

Item 0935 – 60 Gels

Item 0936 – 120 Gels

Positioning Purpose: Sunflower seeds are treasure troves of nutrition. They're rich in the polyunsaturated fatty acids linoleic and oleic acid, which support cardiovascular health, and they contain a good amount of protein- providing amino acids. You'll find a wealth of phenolic compounds in sunflower seeds, including chlorogenic acids (currently very popular since they're also found in green coffee beans), quinic acid, caffeic acid, and more. Sunflower seeds are an excellent source of a variety of minerals including calcium, iron, magnesium, manganese, selenium, and zinc. The seeds also contain B complex vitamins, and they're an excellent source of natural Vitamin E.

For many Americans, daily vitamin E intake from food is primarily in the form of *gamma*-tocopherol from vegetable oils such as corn, canola, and soybean. While corn and soy are the primary dietary sources of vitamin E most of us are familiar with, sunflower seeds contain approximately 7.4 milligrams of this important antioxidant vitamin per serving (a small amount of seeds that fits in the palm of the hand). Sunflowers aren't genetically modified, making them a highly-desirable source of identity-preserved, non-GMO Vitamin E, and they're the source of our newest Vitamin E supplement - Sun-E™ 400 Softgels.

Product Description: NOW® Sun-E™ 400 is a soy-free, natural Vitamin E derived from Identity Preserved (IP), Non-GMO Sunflower Seed Oil. Vitamin E is a major antioxidant and the body's primary defense against lipid peroxidation. It's particularly important for protection against cellular free radicals causing oxidative damage. These protective benefits are achievable with supplemental intakes higher than what is normally consumed in the average diet.*

Ingredients: Vitamin E (as natural d-alpha tocopherol) (Sun E 900™) (from Non-GMO Sunflower Oil) 400 IU. Other Ingredients: Softgel capsule (gelatin, glycerin, water) and Rice Bran Oil.

Ideal Users: Adults seeking a natural, non-GMO, identity-preserved source of Vitamin E in the form of d-alpha tocopherol.

Recommended Use: As a dietary supplement, take 1 softgel daily with a meal.

Also Consider Taking: CoQ10 and Omega-3 Fish or Flax Seed Oil.

Supporting Science: N/A

Additional Information: Some scientific evidence suggests that consumption of antioxidant vitamins may reduce the risk of certain forms of cancer. However, the FDA has determined that this evidence is limited and not conclusive.

For adults only. Consult physician if pregnant/nursing, taking medication, or have a medical condition. Keep out of reach of children.
