Essential Oil Info

NOW® Solutions’ essential oils are genuine reflections of the botanicals of which they’re born. This wide array of essential oils is comprised of pure and natural extracts. The science of producing essential oils has evolved significantly over the years. These days producing essential oil that’s highly concentrated, identity verified, and beneficial is a craft that involves a delicate balance of art and science that cannot be compromised. Fresh botanicals bursting with vitality, strict attention to detail, and meticulous extraction methods are what separate the elite essential oils from the run-of-the-mill natural and synthetic oils you’ll find on the market today. At NOW we take the quality and safety of our essential oils very seriously, and we take great pride in ensuring that every oil we produce is brought to you in a manner that’s scientifically and environmentally responsible.

For more information visit nowfoods.com/nowsolutions.
Congratulations on your purchase of NOW® Solutions Ultrasonic Faux Wood Grain Oil Diffuser designed for indoor use only. Please read the instructions carefully before using.

**How it works**
NOW® Solutions Ultrasonic Faux Wood Grain Oil Diffuser uses high frequency ultrasonic technology that vibrates water inside the unit creating an ultra fine mist into the air. When essential oils are added, they are immediately dispersed into the air providing healthful benefits and helping to ionize the air. It can be used in a bedroom, living room, office area or anywhere you want to create a relaxing environment.

**What’s included**
- Moisture outlet

**How to add essential oil**
1. Take off the Cover
2. Unscrew the water tank cap
3. Add 10-15 drops of essential oil
4. Replace the water tank cap

**How to operate**
1. Connect the Power Cord to the base 1.
2. Plug the Power Cord into the wall.
3. Place water tank on to the base.
4. Place the outer cover over the water tank.

**NOTICE:** Oil mist can damage wooden and painted surfaces, wipe up any residue quickly and often.

**How to clean**
We recommend that you clean your NOW® Solutions Ultrasonic Faux Wood Grain Oil Diffuser every time you change oils. Oils are corrosive, and over time, they build up on the ceramic parts. To ensure a long life for your diffuser, follow these simple steps:

1. Drain and rinse the water tank thoroughly and remove any sediment. Wipe clean and dry with a paper towel.

2. Turn off the unit and disconnect the power plug. Lift off the outer cover and remove the water tank.

3. Rinse the water tank with rubbing alcohol as needed to break up excessive oil residue.

Please read the instructions carefully before using. Manufacturer accepts no liability for damage caused by incorrect use of the NOW® Solutions Ultrasonic Faux Wood Grain Oil Diffuser.
